

### **How to print from one of the library computers (Windows or Mac):**

1. Open your document and go to print.
2. Select "S1-604" from the list and click print.

### **How to print from your Windows laptop:**

1. Connect to eduroam, UMMS, or UMASSMED-Guest Wi-Fi.
2. Copy this text: \\umwwprint01\S1-604LIB
3. Open Windows File Explorer.
4. Paste the text into the top bar, where the file address is displayed.
5. Hit enter.
6. Wait for the drivers to download.
7. Open your document and go to print.
8. Select "S1-604" from the list and click print.

### **How to print from your Mac laptop:**

1. Connect to eduroam, UMMS, or UMASSMED-Guest Wi-Fi.
2. Copy this IP address: 146.189.229.22
3. Open system preferences.
4. Click "Printers and Scanners"
5. Click the "+" sign on the left side of the window to add a new printer.
6. Along the top of the new window that appears, click the IP tab in the middle.
7. Paste the IP address above into the "address" line (the first one).
8. Wait for it to load the printer, then click "Add".
9. If a pop-up appears asking for you to confirm that the printer has duplex printing, check the box and click Ok.
10. Open your document and go to print.
11. Select "S1-604" from the list and click print.
